SUMMARY

Data Analyst with +2 year hands-on experience in SQL, Power BI, and Excel, specializing in transforming raw data into actionable business insights. Experienced in building end-to-end dashboards, defining KPIs, and delivering data-driven solutions for real-world business scenarios. Strong focus on data modeling, storytelling, and supporting decision-making through clear analytical insights.

WORK EXPERIENCE

MIS Analyst | Raya CX

Oct 2025 – Present

- Generated daily reports by extracting, cleaning, and validating data to ensure accurate and timely delivery.
- Developed and maintained dashboards and reports using Power BI and Excel.
- Prepared business presentations (WBR, MBR, QBR) to support performance tracking and decision-making.
- Collaborated with operations teams across multiple accounts to gather requirements and align reporting with business needs.
- Monitored published dashboards and ensured data consistency and performance.
- Coordinated with BI team by delivering structured datasets for dashboard integration.
- Enhanced existing dashboards by adding new KPIs and improving usability.
- Designed a comprehensive analysis view including MoM% tracking and KPI trend analysis.
- Led the development of a full dashboard project end-to-end, from client requirement gathering to final delivery.
- Migrated reporting solutions from Excel to Power BI to improve scalability and interactivity.

Freelance Data Analyst (Part-time) | MOSTAQL

Jan 2025 – Mar 2025

- Gathered and analyzed business requirements for GRC use cases and defined **10+ KPIs**. Cleaned and structured raw datasets, established proper data relationships, and ensured data integrity.
- Cleaned and transformed raw datasets of **5K+ records**, improving data quality and ensuring accurate reporting. Created interactive Power BI dashboards to visualize trends, risks, and performance metrics.
- Delivered Built **15+ interactive Power BI dashboards** to track performance, risks, and trends.
- Developed **20+ DAX measures** to implement custom business logic and advanced calculations.
- Delivered structured reports and dashboards that supported **80% improvement in decision-making efficiency**.

Head Data Analysis Team | IEEE

IEEE Fayoum Branch

Nov 2024 – Mar 2025

- Led and managed a student data analysis team, organizing and delivering hands-on training sessions on statistics, data analysis tools, and database concepts.
- Designed and delivered technical sessions covering Excel for data analysis, descriptive statistics, and database fundamentals.
- Created structured learning paths by assigning resources, tasks, and follow-ups to ensure consistent team skill development.
- Supervised and supported team members in applying data skills to real-world scenarios and practice projects.

Data Analysis Intensive Internship (NTI)

August 2024 – September 2024

- Applied data cleaning, analysis, and visualization techniques using Excel to explore and interpret datasets.
- Built data models and interactive dashboards in Power BI to communicate insights effectively.
- Wrote and executed SQL queries using MS SQL Server to retrieve and manipulate data.
- Used Python for data wrangling and exploratory data analysis in real-world scenarios.
- Created visualizations using Tableau to support data-driven decision making.
- Enhanced communication and collaboration through soft skills training and peer-based learning.

EDUCATION

Bachelor of Computers and Information

Egyptian E-learning University – Egypt

September 2021 – June 2025

- Relevant subjects: Database and SQL, Data Structures and Algorithms, Data Mining, Probability and Statistics, Management Information Systems, Business Intelligence.
- Graduation Project: Recruit System - Website.

Microsoft Power BI Track

Digital Egypt Pioneers Initiative (DEPI)

April 2024 – October 2024

- Completed courses: Excel, MS database and SQL, Analytical SQL, Power BI and Tableau, Data warehouse and BI concepts.
- Graduation Project: Superstore Analysis, analyse sales trends, Product performance, and Customer behaviour to provide insights into data-driven decision-making.

SKILLS

BI & Reporting Tools:

Microsoft Power BI, Tableau, Excel (PivotTables, Power Query).

Databases & Data Warehouses:

Microsoft SQL Server.

Programming & Scripting:

SQL, Analytical SQL, Python (Pandas, NumPy, matplotlib), DAX.

Data Concepts & KPIs:

Data modeling, cleaning and preprocessing, ETL and data integration, KPI dashboards, Business metrics, Forecasting, Financial modeling, Ad-hoc reporting.

Soft Skills:

Stakeholder communication, Requirements gathering, Data storytelling, Problem-solving.

CERTIFICATIONS

Data Analysis Internship – NTI Certificate.

Digital Egypt Pioneers Initiative (DEPI) – Data Analysis Track.
